## Technical Skills

HTML CSS/SCSS Javascript Bootstrap Java Android

Firebase MySQL Oracle Cloud Computing

## Experience

**Alvaro Soft Pvt Ltd.**

**June 2022 - Sept 2022**

**Web Developer (Intern)**

- From planning to maintenance, I have worked in all phases of the software development life cycle.
- Direct communication with the client and stakeholders to better understand their needs and specific requirements.
- Depending on the situation, prepare presentations or designs.
- Managing E-Commerce Websites, updating Product Information, listing and de-listing products, integrating payment gateways, shipping details, etc.
- (Agile Model) Rapid Development Environment.
- Technology Used: **HTML, CSS, Javascript, PHP, WordPress, Database, Woo-Commerce, and many more plugins, Hosting (GoDaddy), Yoast (for SEO), Figma, Canva, and Photoshop.**

## Projects

### **1. Pixofy**

**2022**

- This is an Android application developed using Java and Android Studio with a Firebase database. Users can easily register or log in to the app and access its features, which include capturing or selecting pictures from a local gallery and editing them with a variety of basic and advanced tools. The app's editing tools range from simple to complex, providing users with a wide range of options to enhance their images.
- In addition to editing, users can save their edited images or share them directly on popular social media platforms such as Facebook, Instagram, or WhatsApp. The application also employs third-party SDKs and features LottieFiles for animation and Figma for design.
- Overall, this application is a powerful image editing tool that leverages multiple technologies and tools to deliver a seamless user experience.

## 2. Student Record Management System

2021

- This project is designed to maintain an inventory of student records, provide adequate service to the admin, present a consolidated overview of information and meet unforeseen future demand as a result of variations between forecasts and actuals.
- Technology & Tools Used: HTML, CSS/Scss, Javascript, Bootstrap, Reactjs, SQL, Canva, Figma.
